

NewCytech became HPE Platinum Partner

Tech company NewCytech Business Solutions, member of Logicom Group, managed to reach the highest level of partnership with international giant Hewlett Packard Enterprise (HPE), by acquiring the HPE Platinum Partner accreditation.

NewCytech Business Solutions has been a partner of HPE in Cyprus for the past thirty years, steadily moving up levels in the very prestigious HPE Technology Partner programme. Through this programme, partners receive multiple benefits, including access to all new HPE products, and the unique opportunity to upgrade their systems leveraging industry-leading technology.

NewCytech Business Solutions Managing Director Andreas Dermosoniades stated "It is with great pleasure and honor that we announce today a significant milestone for NewCytech, as a result of our long and strong partnership with HPE. This accreditation is a major achievement for us as a team. My congratulations and special thanks to everybody that contributed towards this great success!"

On behalf of HPE, Channel & Alliances Manager Andreas Gerakanakis mentioned "Warm congratulations to NewCytech Business Solutions; this accreditation confirms the company's reliability as an integrated solutions provider, supporting clients to transform, modernize and digitize their IT infrastructure, with valuable benefits for their businesses".

As a leading technology solutions provider in Cyprus, NewCytech Business Solutions, offers integrated services and systems, combining vast experience and expertise in the field, contributing in the digital transformation of SMEs and large organizations in Cyprus.
